# REGISTRAR'S REPORT.

---

1878.

---

THE ONTARIO MEDICAL REGISTER contains the names of all the Members of the College of Physicians and Surgeons of Ontario, who alone are entitled to practise their Profession in Ontario.

As for more than eight years the Examinations established by the Council have been the only portal to the Medical Profession in Ontario, it has followed that neither the Degree of Doctor of Medicine conferred by any University, nor the Diploma or License of any Medical Body, whether such University or Medical Body were in this Province or elsewhere, has since then given to the holder any right or privilege whatever here, either as to registration or as to practice, unless such of the Qualifications named in Schedule A of the Ontario Medical Act, as were obtained before the 23rd day of July, 1870, and then only after such Qualifications were duly registered.

The Council of the College of Physicians and Surgeons of Ontario will, probably at its next Meeting, deliberate upon the terms upon which reciprocity of Registration will be carried out with similar Bodies in other parts of Her Majesty's Dominions, and in foreign countries.

Those however who, having been residents in Ontario, and begun their medical studies here, have sought Registration elsewhere, must not expect that by such Registration, nor by having passed any Examinations abroad, however stringent, they will be allowed to register and to practise here, and thus evade the Examinations established by the Council of the College of Physicians and Surgeons of Ontario.

In the last edition of this Register, published on 31st December, 1874, there were 1478 Members on the record; in the main body of the present Register, there are 1677 names, showing an increase of 199. 192 have been admitted as Members since last

issue by passing the Examinations of the College; and the remainder upon the presentation of such Qualifications as entitled them to Registration in accordance with the provisions of the "Ontario Medical Act;" there will, however, be about 100 to add to this number before this Register is finally sent out.

The deaths which have occurred among the Members since 1874 amount to 75; 80 Members practise outside of the Province, and there are besides a few Members whose present residence it has not been possible correctly to ascertain; in all there are somewhere about 1700 legally qualified Medical Practitioners now in Ontario, which, according to the Registrar General's estimate of the population of the Province in 1876, would give one medical man to about every 1100 of the inhabitants.

During the last Session of the Provincial Legislature the "ONTARIO MEDICAL ACT" was incorporated into the "*Revised Statutes of Ontario*" in a somewhat condensed form; it is printed herewith for the information of the Profession and of the Public.

In an Appendix will be found the names of those Members registered since the first sheets of this Register went to press, as well as of those who have been admitted as Members of the College by having passed their Final Examination in May, 1878.

The delay which has occurred in the present issue has been in a great measure caused by carrying out the resolution of the Executive Committee of the Council, that the proof-sheets of the Register, while passing through the press, should be submitted to the consideration and revision of the several Members of that Committee. It will, however, be admitted that by this course a degree of accuracy has been secured, which otherwise it would have been almost impossible to have attained.
